Why Buy Our 4-Person Privacy Workstation?

Are you looking for 4-person privacy workstations? The **Sapphire Cubicle System** is our premier cubicle workstation product line. This commercial-grade cubicle system is both scalable and durable. Its lightweight construction makes it a sound investment for any office or work environment. Because of its

modular design, any number of 4-person privacy workstations can be made and connected to one another.

Also, this cubicle system features a variety of choices for the panels (multi-colored fabrics, patterned laminates, and tempered glass) and offers panels reaching 39", 52", and 65" in height. And don't forget, this cubicle system also offers electrical cord/data networking cable conduits along the base of each panel to hide cable clutter.

What Comes With This Product?

The 4-person privacy workstation pictured on this page shows our **Sapphire Cubicle System** divider panels in White laminate with back-to-back worksurfaces for each work area. This arrangement is often ideal for libraries, study rooms, call centers, or other open seating areas of your business.

You can select other colors for the panels, change the overall sizes of the worksurfaces, adjust the height of the panel divider walls, or select a different laminate for the worksurfaces if you'd like. Also, there are many extras you can add to your cubicle workspace such as locking storage bins, pedestal cabinets, accessory racks, monitor arms, paper trays, writing utensil holders, and many other features to complete your project.
