## PRODUCT DESCRIPTION

## Why Buy Our Glass Cubicle Partitions?

The **Sapphire Wall System** features glass cubicle partitions, built to a variety of shapes, sizes, and panel colors. This highly versatile panel system--with heights ranging over 7', 8' or 9'ft--is completely freestanding with no permanent attachments to your floor or ceiling.

In other words, our glass cubicle partitions are a breeze to set up or take down. It usually takes less than a day to assemble (depending on the size of the project).

You can also customize our glass cubicle partitions in a variety of ways; choose all glass panes or mix in multi-colored laminates and fabric panels. The base of each panel features inline data and electrical "raceways" to manage cord and cables. The **Sapphire Wall System** is a beautiful, modular wall alternative to traditional drywall construction--which can take weeks of construction and downtime.

## What Comes With This Product?

The product pictured is an 18'5"D x 9'6" W x 95"H configuration of the glass cubicle partitions. Standing 9 feet tall, it is our all-tempered glass option. This configuration features sliding acrylic doors, but they can easily be upgraded to traditional swing doors with locks.

All our **Sapphire Wall System** products are made from commercial-grade materials, including the lightweight aluminum frames. Additionally, this glass cubicle partition is customizable in any number of ways. This includes dimensions, panel coverings, types of doors, and data/electrical raceway tracks for cord and cable management. In short, we can create anything you need.  Just let us know!

## What Else?

Finally, the glass office partitions made with our **Sapphire Wall System** are fully compatible with any items available in our **Sapphire Cubicle System**, which includes workstations, furniture, and accessories such as file storage, shelving, overhead storage, desks, chairs, and padded benches, paper racks, and accessory rails.
