### PRODUCT DESCRIPTION

#### Why Buy Our Glass Office Walls?

The **Sapphire Wall System** offers glass office walls which can be built to a variety of shapes and sizes. This highly versatile panel system--with heights ranging over 7', 8' or 9'ft--is completely freestanding with no permanent attachments to your floor or ceiling.

In other words, our glass office walls are fully demountable. It usually takes less than a day to assemble

(depending on the size of the project).

You can also customize the panels of our glass office walls in a variety of ways; for example, choose all glass panels or mix in laminates and fabric panels for a unique look. We offer multiple color fabric and laminate options. The **Sapphire Wall System** is a beautiful, modular wall alternative to traditional drywall construction--which can take weeks of construction and downtime.

### **What Comes With This Product?**

This configuration of glass office walls measures 18'4"W x 18'5"D x 95"H. The walls are all tempered glass with support wings in the middle. Quarter-round worksurfaces can be added to the wings to create a shelf for extra storage or décor. Ideally, it can be used as a conference room. It can fit up to a 12-foot conference table from our [Harmony Conference Series](#).

Also, this configuration offers two sliding acrylic doors which can be upgraded to traditional swing doors with locks.

### **What Else?**

Finally, glass office walls of our **Sapphire Wall System** are fully compatible with any items available in our [Sapphire Cubicle System](#). This includes workstations, furniture, and accessories such as file storage, shelving, overhead storage, desks, chairs, and padded benches, paper racks, and accessory rails.
