PRODUCT DESCRIPTION

Why Buy Our High Wall Office Cubicle?

The **Sapphire Wall System** features high wall office cubicles built to a variety of shapes, sizes, and panel colors. This highly versatile panel system--with heights ranging over 7', 8' or 9'ft--is completely freestanding. There's no need for permanent attachments to your floor or ceiling.

In other words, our high wall office cubicles are a breeze to set up or take down. It usually takes less

than a day to assemble (depending on the size of the project).

You can also customize our high wall office cubicles in a variety of ways; choose all glass panes or mix in multi-colored laminates and fabric panels. The base of each panel features inline data and electrical "raceways" to manage cord and cables. The **Sapphire Wall System** is a beautiful, modular wall alternative to traditional drywall construction--which can take weeks of construction and downtime.

What Comes With This Product?

Pictured here is a high wall office cubicle configuration of the **Sapphire Wall System**. It has a 9'5"W x 12'4"D x 95"H footprint. Within the office is an U-shaped desk with Black Oak laminate work surfaces, dual box/box/file pedestal cabinets, and locking storage bins. This configuration doesn't need to be mounted, so it can be deconstructed and moved if ever needed.

While the example pictured doesn't have a door, we offer three different styles of a locking door to enhance security and privacy; a sliding acrylic door, a glass paneled swing door, or a solid swing door with no glass panel.

What Else?

Finally, the high wall office cubicle made with our **Sapphire Wall System** is fully compatible with any items available in our [Sapphire Cubicle System](#), which includes workstations, furniture, and accessories such as file storage, shelving, overhead storage, desks, chairs, and padded benches, paper racks, and accessory rails.
