PRODUCT DESCRIPTION

Buy Our Modular Conference Room?

The **Sapphire Wall System** features modular conference rooms, built to a variety of shapes, sizes, and panel colors. This highly versatile panel system--with heights ranging over 7', 8' or 9'ft--is completely freestanding. There is no need to have permanent attachments to your floor or ceiling.

In other words, our modular conference rooms are a breeze to set up or take down. It usually takes less

than a day to assemble (depending on the size of the project).

You can also customize our modular conference rooms in a variety of ways; choose all glass panes (as shown here) or mix in multi-colored laminates and fabric panels. The base of each panel features inline data and electrical "raceways" to manage cord and cables.

The **Sapphire Wall System** is a beautiful, modular wall alternative to traditional drywall construction-- which can take weeks of construction and downtime.

What Comes With This Product?

The modular conference room creates a space 12' x 15' x 95"H. Use it for many purposes such as a breakroom, waiting area, conference room, etc. This space easily fits up to a 12-foot conference table such as a **Harmony Conference Series** table (available only from *SKUTCHI Designs Inc.).* It's pictured here without a door, but a hinged, swing door or sliding acrylic door is available as an upgrade.

The panels are primarily tempered glass with Lime Green fabric and White laminate on the side walls, but again, you can customize the panels to suit your purpose. Just let us know when you order.

What Else?

The modular conference rooms made with our **Sapphire Wall System** are fully compatible with any items available in our **Sapphire Cubicle System**, which includes workstations, furniture, and accessories such as file storage, shelving, overhead storage, desks, chairs, and padded benches, paper racks, and accessory rails. Give us a call to customize yours today!
