PRODUCT DESCRIPTION

Why Buy Our Modular Executive Offices?

The **Sapphire Wall System** features modular executive offices, built to a variety of shapes, sizes, and panel colors. This highly versatile panel system--with heights ranging over 7', 8' or 9'ft--is completely freestanding with no permanent attachments to your floor or ceiling.

In other words, our modular executive offices are a breeze to set up or take down. It usually takes less

than a day to assemble (depending on the size of the project).

You can also customize our modular executive offices in a variety of ways; choose all glass panes or mix in multi-colored laminates and fabric panels. The base of each panel features inline data and electrical "raceways" to manage cord and cables. The **Sapphire Wall System** is a beautiful, modular wall alternative to traditional drywall construction--which can take weeks of construction and downtime.

What Comes With This Product?

Pictured here is a modular executive office configuration of the **Sapphire Wall System** in a 8'W x 9'D x 8'H footprint. Within the office is an L-Shaped desk with sea salt laminate work surfaces and a box/box/file pedestal cabinet. This configuration doesn't need to be mounted to the floor or ceiling, it can be deconstructed and moved if needed.

While the example pictured doesn't have a door... we offer three different styles of a locking door to enhance security and privacy; a sliding acrylic door, a glass paneled swing door, or a solid swing door with no glass panel.

What Else?

Finally, the modular executive offices made with our **Sapphire Wall System** are fully compatible with any items available in our [Sapphire Cubicle System](#), which includes workstations, furniture, and accessories such as file storage, shelving, overhead storage, desks, chairs, and padded benches, paper racks, and accessory rails.
