## PRODUCT DESCRIPTION

## Why Buy Our Modular Meeting Room?

The **Sapphire Wall System** features this modular meeting room, which can be modified to a variety of shapes, sizes, and panel colors. This highly versatile panel system--with heights ranging over 7', 8' or 9'ft--is completely freestanding with no permanent attachments to your floor or ceiling.

In other words, this modular meeting room is a breeze to set up or take down. It usually takes less than a day to assemble (depending on the size of the project).

You can also customize the modular meeting room in a variety of ways. Choose all glass or mix in laminates and fabric panels. The **Sapphire Wall System** is a beautiful, modular wall alternative to traditional drywall construction--which can take weeks of construction and downtime.

## What Comes With This Product?

Pictured here is a conference room measuring 10' x 10' x 84"H. While most people visualize cubicle spaces as being square, this unique octagonal-shape modular meeting room is created using our 120 degree connectors. As you can see, the panels pictured have white laminate and clear tempered glass. But, you can customize these panels in a variety of ways (all glass or mix in laminate and fabric panels).

Will your space require electrical outlets or data network cables? If so, the **Sapphire Wall System** offers a built-in "raceway tracks" to provide hidden and seamless electric and data integration.

## What Else?

The **Sapphire Wall System** is a beautiful, modular wall alternative to traditional drywall construction (which can take weeks of construction and downtime). Finally, if you wish to customize your order, just give us a call or email.
