PRODUCT DESCRIPTION

Why Buy Our Modular Office Walls?

The **Sapphire Wall System** features modular office walls, built to a variety of shapes, sizes, and panel colors. This highly versatile panel system--with heights ranging over 7', 8' or 9ft--is completely freestanding with no permanent attachments to your floor or ceiling.

In other words, our modular office walls are a breeze to set up or take down. It usually takes less than a day to assemble (depending on the size of the project).

You can also customize our modular office walls in a variety of ways; choose all glass panes or mix in multi-colored laminates and fabric panels. The base of each panel features inline data and electrical "raceways" to manage cord and cables. The **Sapphire Wall System** is a beautiful, modular wall alternative to traditional drywall construction--which can take weeks of construction and downtime.

What Comes With This Product?

This arrangement of the **Sapphire Wall System** creates a standalone cubicle of 10'W x 10'D x 9'H. It's one of our bestselling typicals. While a sliding acrylic door is pictured here, a traditional lockable swing door can be substituted. This arrangement uses an existing wall to create a space which can be used for any number of reasons. The exterior panels feature both Sea Salt and White laminate panels.

Remember, the **Sapphire Wall System** is designed to be both scalable and versatile. It offers dozens of fabric and laminate colors and patterns from which to choose. Create your modular office walls to match your corporate brand or existing office motif.

What Else?

Finally, the modular office walls made with our **Sapphire Wall System** are fully compatible with any items available in our [Sapphire Cubicle System](#), which includes workstations, furniture, and accessories such as file storage, shelving, overhead storage, desks, chairs, and padded benches, paper racks, and accessory rails.
