PRODUCT DESCRIPTION

Phone Booth Cubicles by SKUTCHI Designs

Creating isolated cubicle spaces in your workplace is easy with the **Sapphire Wall System**. In particular, phone booth cubicles or privacy pods.

Phone booth cubicles are a perfect solution for providing quiet, distraction-free environments for customers or employees to have private conversations. The pictured configuration is for two side-by-side

booths, but you can create a row of 10 or more if needed.

There are plenty of options to choose from to create the space you want. For instance, the interior and exterior panels can be fitted with your choice of fabric, laminate, or tempered glass. Our phone booth cubicles can also feature hidden, built-in "raceways tracks" for both electrical and network data cables and wires.

Also, adding, expanding, or replacing individual panels is as simple as a phone call. This specific side-by-side configuration features lockable glass-paneled swing doors, but you can order one with no glass panel for additional privacy. Finally, our phone booth cubicles are manufactured to heights of 7', 8', or even 9' tall.

Contact Us With Questions

You have a host of options to choose from. The [**Sapphire Wall System**](#) by *SKUTCHI Designs Inc.* is a flexible, scalable, and innovative interior office wall solution.
