## PRODUCT DESCRIPTION

## Glass Conference Rooms by SKUTCHI Designs

Creating specialty areas in your workplace is easy with the **Sapphire Wall System**. In particular, all glass conference rooms.

Glass conference rooms are a perfect place to hold meetings or conferences between employees and clients. Pictured here is an all glass conference room divided into two spaces. The dividing wall features white and oak laminate. Two sliding acrylics doors allow for entry on either side of the room.

There are plenty of options to choose from to modify your glass conference room's design. For instance, the divider wall panel can be fitted with fabric, laminate, tempered glass, or even white markerboard. Also, along the base of the panels, we feature seamless, built-in "raceways tracks" for electrical and network data cables and wires.

This specific configuration features sliding acrylic doors, but we offer different styles of doors if you prefer. Also, our glass conference room walls are manufactured to heights of 7', 8', or even 9' tall. Finally, adding, expanding, or replacing individual panels is as simple as a phone call.

### Contact Us With Questions

You have a host of options to choose from. The [Sapphire Wall System](#) by *SKUTCHI Designs Inc.* is a flexible, scalable, and innovative interior office wall solution. Call us if you want modifications to your glass conference room prior to ordering. We will explain your options.
