PRODUCT DESCRIPTION

Why Buy Our Customer Service Cubicles?

The **Sapphire Wall System** features customer service cubicles, which can be modified to a variety of shapes, sizes, and panel colors. This highly versatile panel system--with heights ranging over 7', 8' or 9'ft--is completely freestanding. No permanent attachments to your floor or ceiling.

In other words, our customer service cubicles are a breeze to set up or take down. It usually takes less

than a day to assemble (depending on the size of the project).

You can also customize the panels of our customer service cubicles in a variety of ways. Choose all glass or mix in laminates and fabric panels.

Additionally, we offer built-in "raceways" along the bottom of our walls to provide hidden electrical and data network management. Just as important, you can change or replace panels instead of the entire wall. In short, our freestanding cubicles are customized to suit almost any business or office. If your business needs to relocate, then take them with you to your new location and reconfigure as needed.

The **Sapphire Wall System** is a beautiful, modular wall alternative to traditional drywall construction-- which can take weeks of construction and downtime.

What Comes With This Product?

Pictured here is a 25' wide x 12' deep row of customer service cubicles. Each individual space measures 6' x 9' and include an L-shaped worksurface and transaction window. Use this arrangement for ticket sales, customer assistance booths, government agencies, or any other situation where separated space is require between people.

The customer services cubicles pictured here feature Royal Blue fabric, White laminate, and tempered glass windows, however, all of the modular panels are interchangeable to suit your needs. Choose different colored fabrics or laminates to match your office's motif or corporate brand. This wall is recommended for ceiling clearances of 8' and higher.

What Else?

The customer services cubicles, made with our **Sapphire Wall System**, are fully compatible with any items available in our [Sapphire Cubicle System](#), which includes workstations, furniture, and accessories such as file storage, shelving, overhead storage, desks, chairs, and padded benches, paper racks, and accessory rails.
