### PRODUCT DESCRIPTION

#### Why Buy Our Executive Office Cubicle?

The **Sapphire Wall System** offers executive office cubicles which can be built to a variety of shapes, sizes, and panel colors. This highly versatile panel system--with heights ranging over 7', 8' or 9'ft--is completely freestanding with no permanent attachments to your floor or ceiling.

In other words, our executive office cubicles are a breeze to set up or take down. It usually takes less

than a day to assemble (depending on the size of the project).

You can also customize our executive office cubicles in a variety of ways. Choose all glass or mix in laminates and fabric panels. The base of each panel features inline data and electrical "raceways" to manage cord and cables. The **Sapphire Wall System** is a beautiful, modular wall alternative to traditional drywall construction--which can take weeks of construction and downtime.

### **What Comes With This Product?**

The 9'W x 12'D x 95"H configuration pictured here is perfect for an executive office cubicle. The panels feature Walnut and White laminates, with tempered glass toppers along the top. Additionally, the worksurface also features Walnut laminate. Each executive office cubicle is equipped with a box/box/file cabinet and a 2-drawer lateral filing cabinet. There are 3 overhead storage bins as well as 3 overhead bookshelves.

This wall system can be customized in an unlimited number of ways to suit any business or office design.

### **What Else?**

The executive office cubicles made with our **Sapphire Wall System** are fully compatible with any items available in our [Sapphire Cubicle System](#), which includes workstations, furniture, and accessories such as file storage, shelving, overhead storage, desks, chairs, and padded benches, paper racks, and accessory rails.
