PRODUCT DESCRIPTION

With its lightweight modular construction, the **SAPslim Cubicle System** is our latest entry-level cubicle/divider product line. This cubicle divider panel system was designed with affordability and practicality in mind and requires minimal assembly--making it ideal for nearly any size business.

Pictured here is a side-by-side, 2-person workstation separated by corrugated frosted polycarbonate and Sea Salt laminated panels. Both worksurfaces sport a White laminate surface, but can be changed to any one of 8 different patterns.

Nearly any part of the configuration you see pictured here can be added to, modified, or re-imagined. The frosted polycarbonate panels can be exchanged with multiple fabric surfaces or the worksurfaces can be upgraded to our **Quantum Sit-to-Stand** desks. Just let us know how you'd like to customize
