PRODUCT DESCRIPTION

The **SAPslim Cubicle System** is our newest, entry-level cubicle/divider product line. This versatile cubicle divider panel system was designed with affordability and practicality in mind. Its lightweight, modular construction makes it easy to quickly assemble in any work environment.

This typical is made up of a mixture of corrugated frosted polycarbonate panels and White laminate/Royal Blue fabric panels. The stationary worksurface as well as the sit-to-stand worksurface are shown in White laminate. Consider this a basic "starter" configuration for your office... you can easily order additional cubicles that will slide and lock into the existing unit so you can expand or deduct as needed.

Nearly any part of the configuration you see pictured here can be added to, modified, or re-imagined.

The polycarbonate panels can be replaced with Sea Salt laminate panels or multiple colored fabric surfaces. There are plenty of inexpensive extras you can add to the **SAPslim Cubicle System** as well.
