

FREESTANDING WAVE DECORATIVE ROOM DIVIDER SCREEN | CONTEMPORARY ROOM DIVIDER

\$1,201.50

WAVEwall brings an arrangement of undulating panels which provide a visual barrier, yet also allow air & light to pass through openings. The design functions as a filter between spaces. WAVE's curved panel shape dampens sound and redirects ambient light to pass through the screens openings. WAVE is available in three widths and a range of frame and panel colors to offer full customization for your space.

Features

- Provides visual barrier
- Allows light & sound to transmit
- Aluminum interlocking frame
- Removable panel design
- Frame standard in anodized silver
- White and black frames also available
