PRODUCT DESCRIPTION

Why Buy Our Glass Conference Room Cubicle Walls?

The **Sapphire Wall System** offers glass conference room cubicles which can be built to a variety of shapes and sizes. This highly versatile panel system--with heights ranging over 7', 8' or 9'ft--is completely freestanding with no permanent attachments to your floor or ceiling.

In other words, our glass conference room cubicle walls are fully demountable. It usually takes less than a day to assemble (depending on the size of the project).

You can also customize the panels of our glass office cubicles in a variety of ways; choose all glass or mix in laminates and fabric panels. We offer multiple color fabric and laminate options. The **Sapphire Wall System** is a beautiful, modular wall alternative to traditional drywall construction--which can take weeks of construction and downtime.

What Comes With This Product?

The 12' x 12' x 95" glass conference room cubicle pictured on this page includes sliding acrylic door. Additionally, we offer built-in "raceways" along the bottom of our walls to provide hidden electrical and data network management. Just as important, you can change or replace individual panels when needed instead of the entire wall.

In short, our glass cubicles can be customized in many ways to suit almost any business or office. If your business ever needs to relocate then simply take the glass cubicle with you to your new location and reconfigure as needed.

What Else?

The glass cubicles of our **Sapphire Wall System** are fully compatible with any items available in our **Sapphire Cubicle System**, which includes workstations, furniture, and accessories such as file storage, shelving, overhead storage, desks, chairs, and padded benches, paper racks, and accessory rails. Give us a call to customize yours today!
