PRODUCT DESCRIPTION

Why Buy Our Glass Room Divider with Door?

The **Sapphire Wall System** offers glass room dividers with door which can be built to a variety of shapes, sizes, and panel colors. This highly versatile panel system--with heights ranging over 7', 8' or 9'ft--is completely freestanding with no permanent attachments to your floor or ceiling.

In other words, our glass room dividers with door are a breeze to set up or take down. It usually takes less than a day to assemble (depending on the size of the project).

You can also customize the panels of our glass room divider with door in a variety of ways; choose all glass or mix in laminates and fabric panels. The **Sapphire Wall System** is a beautiful, modular wall alternative to traditional drywall construction--which can take weeks of construction and downtime.

What Comes With This Product?

Pictured here is a simple partition wall configuration in all tempered glass panels. This arrangement is ideal when you need to separate two sides of a room or hallway. Also, it features a glass panel swing door with custom lock and key.

This typical wall partition features all tempered glass panels, but we offer several fabric colors and laminates from which to choose if you'd like to replace the glass panels.

What Else?

The glass room divider with door, made with our **Sapphire Wall System,** is fully compatible with any items available in our **Sapphire Cubicle System**, which includes workstations, furniture, and accessories such as file storage, shelving, overhead storage, desks, chairs, and padded benches, paper racks, and accessory rails.
