PRODUCT DESCRIPTION

Why Buy Our Modular Doorway?

The **Sapphire Wall System** offers modular doorways which can be built to a variety of shapes, sizes, and panel colors. This highly versatile panel system--with heights ranging over 7', 8' or 9'ft--is completely freestanding with no permanent attachments to your floor or ceiling.

In other words, our modular doorways are a breeze to set up or take down. It usually takes less than a day to assemble (depending on the size of the project).

You can also customize the panels of our modular doorways in a variety of ways; choose all glass or mix in laminates and fabric panels. The **Sapphire Wall System** is a beautiful, modular wall alternative to traditional drywall construction--which can take weeks of construction and downtime.

What Comes With This Product?

Pictured here is a simple partition wall configuration paneled in White laminate, Royal Blue fabric, and featuring tempered glass "toppers". This arrangement is ideal when you need to separate two sides of a room or hallway. Also, it features a simple sliding acrylic panel to help lower the cost of purchase. Add a locking swing door to this typical as an upgrade.

We have several fabric colors and laminates from which to choose. Just tell us what you're looking for before you order.

What Else?

The modular doorways made with our **Sapphire Wall System** are fully compatible with any items available in our **Sapphire Cubicle System**, which includes workstations, furniture, and accessories such as file storage, shelving, overhead storage, desks, chairs, and padded benches, paper racks, and accessory rails.
