PRODUCT DESCRIPTION

Why Buy Our Modular Partition Walls?

The **Sapphire Wall System** offers modular partition walls, built to a variety of shapes, sizes, and panel colors. This highly versatile panel system--with heights ranging over 7', 8' or 9'ft--is completely freestanding with no permanent attachments to your floor or ceiling.

In other words, our modular partition walls are a breeze to set up or take down. It usually takes less than a day to assemble (depending on the size of the project).

You can also customize the panels of our modular partition walls in a variety of ways; choose all glass or mix in laminates and fabric panels. The **Sapphire Wall System** is a beautiful, modular wall alternative to traditional drywall construction--which can take weeks of construction and downtime.

What Comes With This Product?

Pictured here is a simple 12-foot wide partition wall with a mixture of glass and White laminate modular panes and a locking door. This arrangement is ideal when you need to separate two sides of a room or hallway. Also, the door is a traditional swing (hinged) door with a custom lock. All of the modular glass and laminate panels can be changed to suit your needs, however. Choose different colors to match your office's motif or corporate brand. This wall is recommended for ceiling clearances of 7' and higher.

What Else?

The modular partition walls, made with our **Sapphire Wall System**, are fully compatible with any items available in our [Sapphire Cubicle System](#), which includes workstations, furniture, and accessories such as file storage, shelving, overhead storage, desks, chairs, and padded benches, paper racks, and accessory rails. Give us a call to customize yours today!
