### PRODUCT DESCRIPTION

#### Why Buy Our Partition Wall with Locking Door?

The **Sapphire Wall System** offers partition walls with locking doors which can be built to a variety of shapes, sizes, and panel colors. This highly versatile panel system--with heights ranging over 7', 8' or 9'ft--is completely freestanding with no permanent attachments to your floor or ceiling.

In other words, our partition walls with locking doors are a breeze to set up or take down. It usually takes less than a day to assemble (depending on the size of the project).

You can also customize the panels of our partition walls with locking doors in a variety of ways; choose all glass or mix in laminates and fabric panels. The **Sapphire Wall System** is a beautiful, modular wall alternative to traditional drywall construction--which can take weeks of construction and downtime.

### **What Comes With This Product?**

Pictured here is a simple partition wall configuration paneled in white laminate and featuring tempered glass. This arrangement is ideal when you need to separate two sides of a room or hallway. Also, it features a hinged, locking swing door or downgrade to a simple sliding acrylic panel.

We have several fabric colors and laminates from which to choose. You can also replace the glass panels with fabric or laminate panels instead.

### **What Else?**

The demountable glass partitions made with our **Sapphire Wall System** are fully compatible with any items available in our [Sapphire Cubicle System](#), which includes workstations, furniture, and accessories such as file storage, shelving, overhead storage, desks, chairs, and padded benches, paper racks, and accessory rails.
