PRODUCT DESCRIPTION

Why Buy Our Private Office Cubicles?

The **Sapphire Wall System** features private office cubicles, built to a variety of shapes, sizes, and panel colors. This highly versatile panel system--with heights ranging over 7', 8' or 9'ft--is completely freestanding with no permanent attachments to your floor or ceiling.

In other words, our private office cubicles are a breeze to set up or take down. It usually takes less than

a day to assemble (depending on the size of the project).

You can also customize our private office cubicles in a variety of ways; choose all glass panes or mix in multi-colored laminates and fabric panels. The base of each panel features inline data and electrical "raceways" to manage cord and cables. The **Sapphire Wall System** is a beautiful, modular wall alternative to traditional drywall construction--which can take weeks of construction and downtime.

What Comes With This Product?

This typical has an overall dimension of 10'4"W x 20'5"D x 95"H which creates two 10' x 10' private offices.

This is a perfect configuration to create private office cubicles with a passthrough door on a shared wall. The shared wall between the two workspaces features an sliding acrylic pane door. However, you could upgrade this to a traditional locking swing door or remove the door altogether if you wish. Also, each cube has its own locking swing door.

And, the **Sapphire Wall System** features dozens of fabric colors and laminates for the panels for you to choose from. Pictured here is Slate Blue and Banana fabrics with White Laminate on the top.

What Else?

Finally, the glass office partitions made with our **Sapphire Wall System** are fully compatible with any items available in our **Sapphire Cubicle System**, which includes workstations, furniture, and accessories such as file storage, shelving, overhead storage, desks, chairs, and padded benches, paper racks, and accessory rails.
