PRODUCT DESCRIPTION

Why Buy Our Workstation Cubicle with L-Shaped Desk?

The **Sapphire Wall System** can be used to build typicals like this workstation cubicle with L-shaped desk. You can purchase it as you see it here on the page, or we can alter it to a variety of shapes, sizes, and panel colors. In addition to its commercial-grade aluminum framework, it offers tempered glass window panes and modular panels of fabric or laminate.

This highly versatile panel system--with heights of 7', 8' or 9'ft--is completely freestanding with no permanent attachments to your floor or ceiling. In other words, our modular executive offices are a breeze to set up or take down. It usually takes less than a day to assemble (depending on the size of the project).

You can also customize this workstation cubicle with L-shaped desk in a number of ways; choose all glass panes or mix in multi-colored laminates and fabric panels. The base of each panel features inline data and electrical "raceways" to manage cord and cables. The **Sapphire Wall System** is a beautiful, modular wall alternative to traditional drywall construction--which can take weeks of construction and downtime.

What Comes With This Product?

Pictured here is a workstation cubicle with L-shaped desk configuration. in a 7'W x 8'D x 8'H footprint. Within the office is an L-Shaped desk with White laminate work surfaces and a box/box/file pedestal cabinet.

This configuration doesn't need to be mounted to the floor or ceiling. Therefore, it can be deconstructed and moved if ever needed. Additionally, while the example pictured doesn't have a door... we offer three different styles of a locking door to enhance security and privacy; a sliding acrylic door, a glass paneled swing door, or a solid swing door with no glass panel.

What Else?

Finally, the workstation cubicle with L-shaped desk made with our **Sapphire Wall System** are fully compatible with any items available in our [Sapphire Cubicle System](#), which includes workstations, furniture, and accessories such as file storage, shelving, overhead storage, desks, chairs, and padded benches, paper racks, and accessory rails.
